

Investments Designed for Missouri

¹Standard & Poor's fund ratings are based on analysis of credit quality, market price exposure, and management. According to Standard & Poor's rating criteria, the AAAM rating signifies excellent safety of investment principal and a superior capacity to maintain a \$1.00 per share net asset value. However, it should be understood that the rating is not a "market" rating nor a recommendation to buy, hold or sell the securities. For a full description on rating methodology, visit Standard & Poor's website (http://www.standardandpoors.com/en_US/web/guest/home).

²The AA Af rating reflects Fitch Ratings' ("Fitch") review of the Term program's investment and credit guidelines, the portfolio's credit quality and diversification, as well as the capabilities of PFM Asset Management LLC as investment adviser. It indicates the highest underlying credit quality (or lowest vulnerability to default). However, it should be understood that this rating is a not "market" rating nor a recommendation to buy, hold or sell the securities. For a full description on rating methodology visit www.fitchratings.com

³PFM Asset Management LLC (PFMAM) serves as the Investment Adviser for MOSIP and offers MOSIP investors the ability to purchase CDs. CD purchases are separate from MOSIP's investment program and investors that opt to purchase CDs enter into a separate agreement with PFMAM.

⁴These services are provided under separate contract with PFMAM. Individually managed portfolios are automatically linked to an investor's MOSIP account(s) so that maturities and coupon payments are invested at all times but the portfolios are not a part of MOSIP.
